Profile Summary

Full-Stack Software Engineer with 2+ years of experience in **Ruby on Rails**, **React.js**, and **RESTful API development**. Skilled in building scalable and high-performance web applications with strong expertise in **MySQL**, **PostgreSQL**, and front-end optimization. Proficient in **RSpec**, **FactoryBot**, and modern web development practices, with a focus on delivering secure, efficient, and maintainable software solutions.

Experience

Skyach Software Solutions, Software Engineer

Mohali, Punjab

05 July 2023 – 26 Oct 2025

- Developed and maintained **RESTful APIs** with **Ruby on Rails** and **MySQL**, ensuring scalable and high-performance application architecture.
- Integrated **Twilio** for SMS and voice functionality, and **Mandrill API** for secure, templated email delivery including authentication, notifications, and password resets.
- Deployed **Sidekiq** with **Redis** to schedule and process background jobs, improving notification delivery and system performance.
- Implemented **AnyCable** for real-time **WebSocket** updates, enabling in-app notifications and cross-tab messaging with improved performance and reliability over Action Cable.
- Integrated **Sphinx** with **Thinking Sphinx** for full-text search, optimizing indexing and query performance.
- Built and optimized a **React.js** front end with a focus on responsive design, usability, and performance.
- Optimized **MySQL** queries and indexing, enhancing database performance and scalability.
- Strengthened application security by implementing **authentication**, **authorization**, and robust error handling across Rails and React applications.
- Adopted **Test-Driven Development (TDD)** with **RSpec**, reducing production issues and ensuring code quality.
- Conducted code reviews, managed pull requests, and mentored junior developers on best practices within a collaborative environment.
- Contributed to upgrading the project from **Rails 6 to Rails 7**, auditing and updating gems, refactoring deprecated code, adjusting configurations (**Zeitwerk**, encrypted credentials), and ensuring smooth deployment and compatibility.

Education

Sardar Beant Singh State University, B.Tech Computer Science

Gurdaspur, Punjab

- CGPA: 7.0

Aug 2019 – May 2023

Smt. Dhan Devi Public School, Senior Secondary Education

Gurdaspur, Punjab

- Percentage: 70

April 2018 – Mar 2019

Skills

Frameworks & Libraries: Ruby on Rails, React.js, RSpec, FactoryBot, jQuery, Bootstrap, Axios

Languages: Ruby, JavaScript, HTML, CSS

Databases: MySQL, PostgreSQL, SQL

Tools & Technologies: Git, GitHub, AWS (EC2 – basic knowledge), Sidekiq, AJAX, Jira, Agile

Projects

1. MoveItPro - Online software for managing the operations of moving storage companies

Contributed to MoveItPro, a SaaS platform for moving and storage companies, by implementing features such as real-time dispatch tracking, digital BOL generation, and automated lead management via iframe-based forms. Integrated Twilio for call handling, enabled cloud photo uploads using GCS, and supported mobile app development with Rails API. Enhanced CRM and internal reporting tools to improve operational efficiency.

Tools Used: Ruby on Rails, React.js, MySQL, Sidekiq, Twilio, Git

2. Curve Madness – Gym Management Web App

Curve Madness is a full-stack gym management web application built using Ruby on Rails, designed to streamline operations such as member registration, attendance tracking, payments, and membership plan management. The project uses MySQL as the backend database to ensure secure and reliable data storage. I personally managed the deployment and hosting of the application on Amazon EC2, handling server setup, configuration, and maintenance. The application features a responsive user interface built with Bootstrap, along with an admin dashboard that provides real-time insights into member activity, new registrations, and payments. This project demonstrates my ability to build, deploy, and maintain a production-level web application from end to end.

Tools Used: Ruby on Rails, MySQL, AWS EC2, Git
